Ref: Buy America and Buy American Acts

Dear Valued Customer:

Please let this letter serve as documentation that the steel pipe, sprinkler pipe, conduit and conduit fittings manufactured by Wheatland Tube Company are produced domestically in the United States of America. Additionally, Wheatland's products meet the Buy America and Buy American Act requirements of 100% made and melted in the USA, if requested on the purchase order.

Wheatland's 8" and 10" Schedule 10 do not meet the Buy America(n), ARRA or AIS requirements since they are manufactured by Atlas Tube (Zekelman Industries Division) in Canada.

Also, Speed Couplings are supplied by, not produced by, Wheatland Tube. Speed Couplings are not manufactured in the U.S.A. and do not meet the Buy America and Buy American Act requirements.

Please note that Wheatland Tube cannot provide blanket statements certifying melt country of origin. For material that has already been shipped or installed, the heat number, run number, or tag (batch) number will need to be provided in order for Wheatland to verify or certify compliance with Buy America or Buy American requirements.

If I can be of any further assistance, please do not hesitate to contact me.

Sincerely,

Tiffany Dunworth
