

Post length calculations for standard design/normal conditions:

- Line posts = Fabric height + 2'-8" (813 mm)
- Corner post with Corner Arm = Fabric height + 3'-0" (914 mm)
- End posts Extended 1'-0" for Barbed Wire = Fabric height + 4'-0" (1219 mm)
- Footings: Diameter (4x) post diameter, min. depth 3'-0" (914 mm)

Typical Chain Link Fence Elevation - Type "DOA"
 Three Strands Barbed Wire with Top and Bottom Tension Wire
