Wheatland Tube’s rigid metal conduit comes in eight vivid colors, making it the easiest way to identify critical systems in any tough environment. The vibrant powder-coated finish won’t crack, flake or peel during conduit bending. And the UV protective coating prevents fading, even when continuously exposed to direct sunlight. Plus, the hot-dip galvanization protects both the ID and the OD from corrosion. RMC is available in color in trade sizes ½–4.

Got a project that demands circuit identification? Contact us at wheatland.com/color-rigid
Now you can get Wheatland Tube’s rigid metal conduit in eight vivid colors. Don’t waste time spray-painting or taping when you can get RMC in color. It’s made to order, with a quick turnaround.
