

SmartCompression™ EMT

with Pre-installed Compression Coupling

SmartCompression EMT with pre-installed compression coupling saves time on every installation. It can be coupled 3x faster than standard couplings, and its smooth ID coating allows for faster wire pulling. SmartCompression EMT is available in trade sizes 2-4 and lengths of 10' and 20'.

Listing

SmartCompression EMT is listed to safety standards UL-797 and UL-514B for fittings.

SmartCompression EMT is manufactured in accordance with ANSI® C80.3.

Locations

SmartCompression EMT is concrete tight. It is ideal for use wherever compression couplings are specified or preferred. Raintight available upon request.

Coatings

SmartCompression EMT is galvanized with a clear top coat, and the compression fitting is zinc-electroplated to inhibit corrosion.
