TIME-SAVING ELECTRICAL PRODUCTS

Save time and money on every job.

When you work in electrical contracting, there are lots of challenges on the job. Keeping long conduit runs as straight as possible. Working in tight spaces. And making connections quickly in order to meet short deadlines. That's why Wheatland Tube developed a line of electrical products that help you work smart — saving you time and money on installation while ensuring the long-term quality of the run.

For more information, call **800.257.8182** or visit **wheatland.com**

3X FASTER!

SmartCompression™ EMT

WITH PRE-INSTALLED COMPRESSION COUPLING

Faster Is Smarter

For any job where compression fittings are specified or preferred, choose SmartCompression EMT to get the job done faster. It's UL® Listed concrete tight!

- ✓ Coupling attached for 3x faster installation*
- ✓ Proprietary ID coating for 20% faster wire pulling**
- ✓ No fumbling with loose couplings

Availability

Trade sizes 2-4
10' & 20' lengths
Raintight available upon request

*Compared to standard compression coupling installations
**Compared to EMT with uncoated ID

For use in warehouses, in factories, in concrete and buried

8X FASTER!

SpeedCouple

PRE-INSTALLED SWIVEL COUPLING

Fast and Flexible

When making connections with SpeedCouple, you can turn the pre-installed coupling instead of the conduit or elbow. Just align, turn and tighten.

- ✓ Coupling attached for up to 8x faster installation*
- ✓ All-in-one design for up to 50% material cost savings**
- ✓ Easy lead-in threads

Availability

10' rigid metal conduit and 10' IMC
SpeedCouple RMC and elbows in trade sizes 2-6
SpeedCouple IMC in trade sizes 2-4

*Compared to three-piece coupling installations for straight runs
**Compared to elbow installations with three-piece couplings

For use anywhere RMC or IMC is used

5X FASTER!

SmartSet™ EMT

WITH BUILT-IN SET SCREW COUPLING

The Smart Way to RacewaySM

With SmartSet EMT, you don't have to purchase, inventory and install separate couplings. Every piece of SmartSet EMT comes with one built-in set screw coupling so you can work smarter, saving time and money on every job.

- ✓ Coupling built in for 5x faster installation*
- ✓ No fumbling with couplings
- ✓ Ideal for prefabrication

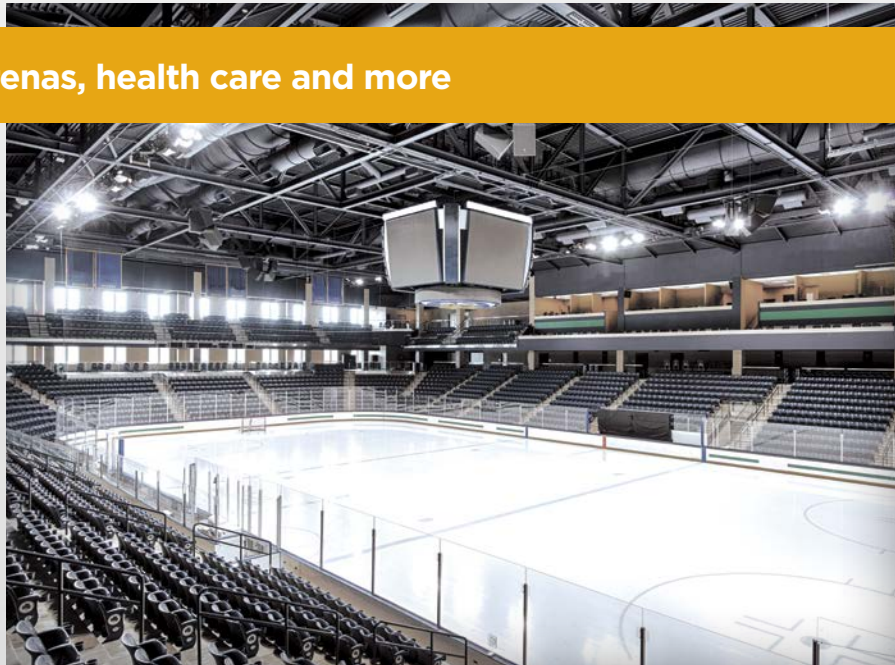

Availability

Trade sizes 1¼-4
10' & 20' lengths

**Compared to traditional coupling installations*

For use in warehouses, arenas, health care and more

2X FASTER!

20' EMT

The Smart Choice for Long Runs

Wheatland Tube's exclusive 20' steel EMT comes with built-in savings. It lets you work faster and straighter than traditional 10' lengths.

- ✓ Double the length for 2x faster installation*
- ✓ Half the couplings for 50% lower connection costs
- ✓ Straighter runs

Availability

EMT trade sizes ½-4

**Compared to traditional 10' lengths*

For use in convention halls, manufacturing, energy facilities and more

WORK FASTER!

Color EMT and Rigid Conduit

Built-in Labeling for Critical Systems

Color EMT and rigid conduit keep everything in order during installation and take the guesswork out of future maintenance. No need to paint or tape on the job — the work is already done for you.

- ✓ 8 vivid colors
- ✓ No painting or taping
- ✓ Easy circuit identification

Availability

EMT and RMC trade sizes ½-4

Easily identify fire alarm, security, data and other critical circuits

About Wheatland Tube Electrical Conduit and Fittings

Wheatland Tube produces a broad spectrum of steel electrical conduit, including intermediate metal conduit (IMC), electrical metallic tubing (EMT) and hot-dip galvanized steel rigid metal conduit (RMC). We also supply a full line of steel and aluminum elbows and nipples, steel couplings, and rigid aluminum conduit and couplings. Additionally, we now offer a line of time-saving electrical products, including SpeedCouple, a pre-installed swivel coupling; SmartSet™ EMT with integral set screw coupling; and SmartCompression™ EMT with pre-installed compression coupling.
