**WITH ZEKELMAN**

## Electrical Metallic Tubing (EMT)

### An Easy but Tough Wiring Solution

Wheatland's American-made EMT is ideal for any standard application. Light walls allow for easy bending, and our proprietary smooth ID coating ensures 20% faster wire pulling.

- Trade sizes: ½–4
- Lengths: 10', 20'
- Available in 9 vivid colors

## Rigid Metal Conduit (RMC)

### The Ultimate Protection

Hot-dip galvanized inside and out, Wheatland's American-made RMC is tough enough for corrosive environments. Plus, it's easy to cut, bend and thread.

- Trade sizes: ½–6
- Lengths: 10'
- Available in 9 vivid colors (trade sizes ½–4)

## Intermediate Metal Conduit (IMC)

### A Lighter-weight Alternative to RMC

Wheatland's American-made IMC weighs approximately 33% less than RMC, so it keeps your customers' costs down and productivity up.

- Trade sizes: ½–4
- Lengths: 10'

## Rigid Aluminum Conduit (RAC)

### A Light, Corrosion-resistant Wiring Solution

One-third the weight of RMC, American-made RAC protects against sparking, magnetism and rust. Plus, it's easy to cut, bend and thread on the job and stays looking great.

- Trade sizes: ½–6
- Lengths: 10', 15'

## Elbows, Couplings & Nipples (EC&N)

### Best-in-class Connections

Wheatland's EC&N are made with the same materials as our conduit and produced in-house, right here in the USA.

- Trade sizes: ½–6 elbows, couplings and nipples; 1–6 special large-radius 90° elbows

## TIME-SAVING ELECTRICAL PRODUCTS

### SMARTCOMPRESSION™ EMT

EMT with pre-attached compression fitting for faster installation.

- Trade sizes: 2–4
- Lengths: 10', 20'

### SMARTSET™ EMT

EMT with built-in set screw coupling to help contractors work smarter.

- Trade sizes: 1¼–4
- Lengths: 10', 20'

### SPEEDCOUPLE

Pre-installed swivel coupling for conduit and elbows to help contractors work faster.

- Trade sizes: 2–5 RMC, 2–4 IMC
- Lengths: 10' RMC and IMC

### 20' EMT

EMT available in twice the traditional length to help reduce installation time.

- Trade sizes: ½–4 EMT
