

Pre-Galvanized Fence Framework

Tough and Dependable

Wheatland Tube's pre-galvanized fence framework features built-in corrosion protection — both inside and out.

Triple-layer Protection

Our triple-coat process starts with a fully galvanized steel coil shipped direct from the producing mill. An intermediate pretreatment is applied to control white rust, followed by a clear polymer top coat that seals the surface and enhances the corrosion protection of the zinc. It all adds up to significantly increased service life.

The polymer coat also acts as a primer for additional painting or powder coating, with only minimal surface preparation required.

The Wheatland Difference

Wheatland Tube's pre-galvanized fence framework is a premium yet economical solution for a wide range of applications.

Products

Produced in our Chicago, Illinois and Long Beach, California facilities, our pre-galvanized line includes residential framework, PG-15, PG-20 and PG-40.

Applications

Wheatland's pre-galvanized fence framework can be used in a wide variety of residential, commercial, industrial and high-security applications.

Size and Dimension Ranges

PRODUCT	FENCE INDUSTRY OD	DECIMAL	WALL	GAUGE	WEIGHT	PIECES LIFT
		EQUIVALENT	THICKNESS		lb./ft.	
		in.	in.			
Residential	1 3/8"	1.315	0.047	18	0.64	91
