# 20' Steel EMT

Submittal Sheet

20' steel EMT takes half as long to couple as 10' lengths and saves you 50% on connection costs. Produced to the same quality standards as our 10' lengths, 20' lengths from Wheatland Tube provide durable protection for electrical systems. Work faster and straighter with 20' lengths available in EMT sizes ½-4.

#### Listing

Wheatland Tube EMT is UL® Listed to UL-797. It is manufactured in accordance with ANSI® C80.3 and federal specification WW-C-563.

#### Locations

Wheatland Tube EMT meets the requirements of National Electrical Code® Article 358 for open, concealed and concrete slab installations. It is compatible with all types of building materials.

#### Testing

Wheatland Tube performs regular tests of its EMT for weld strength, plating thickness, all dimensions, and uniform smoothness of the interior and exterior coatings.

#### **Coatings**

Wheatland Tube EMT is in-line galvanized to prevent chipping, cracking and peeling, and a transparent secondary coating provides further protection against corrosion. A special low-friction polymer ID coating is applied for faster wire installation.
