Ref: Buy American Provisions of the American Recovery and Reinvestment Act (ARRA)
Compliance with 49 U.S.C 5323(j)(1) and applicable regulations in 49 CFR Part 661

Dear Valued Customer:

Please let this letter serve as documentation that the steel pipe, sprinkler pipe, conduit and conduit fittings manufactured by Wheatland Tube Company are produced domestically in the United States of America. Additionally, Wheatland's products meet the Buy American Provisions of the American Recovery and Reinvestment Act (ARRA) requiring steel products to be 100% made and melted in the USA, if requested on the purchase order.

Some sizes and schedules of Wheatland's pipe larger than 6" may not meet the Buy America(n), ARRA or AIS requirements due to our Atlas Tube (Zekelman Industries) manufacturing capabilities in Canada. As of this writing, Wheatland's 8" through 18" ASTM A53 ERW Grade B pipe is 100% melted and manufactured in the USA. Wheatland's 8" & 10" Schedule 10 ASTM A135 Black and Galvanized pipe is made in Canada (Zekelman Industries) and finished in the USA.

If I can be of any further assistance, please do not hesitate to contact me.

Sincerely,

Michael S. Ryan
Technical Services Manager
