Ref: Domestic Manufacture

Dear Valued Customer:

Please let this letter serve as documentation that the steel pipe, sprinkler pipe, tubing, conduit, conduit fittings; including aluminum conduit and fittings manufactured by Wheatland Tube Company are produced domestically in the United States of America.

Some sizes and schedules of Wheatland's pipe larger than 6" may not meet the Buy America(n), ARRA or AIS requirements due to our Atlas Tube (Zekelman Industries) manufacturing capabilities in Canada.

As of this writing, Wheatland's 8" through 18" ASTM A53 ERW Grade B pipe is 100% melted and manufactured in the USA. Wheatland's 8" & 10" Schedule 10 ASTM A135 Black and Galvanized pipe is made in Canada (Zekelman Industries) and finished in the USA.

Wheatland Tube Division has five manufacturing facilities in the following locations: Wheatland, Pennsylvania; Warren, Ohio; Cambridge, Ohio; Chicago, Illinois and Long Beach, California.

If I can be of any further assistance, please do not hesitate to contact me.

Sincerely,

Michael S. Ryan
Technical Services Manager
