Space constraints and sidewall pressure are no match for Wheatland Tube's XL-radius elbows

Standard elbows don't always cut it when you're up against obstacles in the field or excessive sidewall pressure. Wheatland Tube's XL-radius elbows help you work around awkward spaces and allow for faster and safer wire-pulling by reducing sidewall pressure on medium voltage (MV) or 600V wire cable pulls. And, our XL-radius elbows are made in the USA with the level of quality and attention to detail only Wheatland Tube can deliver.

To place an order, call 800.257.8182 or contact your local sales representative.
