

EMT Compression Fitting Assembly

Made in the USA

100% corrosion resistant

Trade sizes 2"-4"

Raintight available upon request

Wheatland quality. Wheatland support. Compression fittings come assembled to Wheatland Tube's EMT, reducing handling and saving time on the job site. The zinc diecast construction ensures 100% corrosion resistance and meets the same UL-514B standards as steel fittings. Wheatland Tube compression fittings are listed as concrete tight, and raintight is available upon request.

Know better. Know Wheatland.
